

NOTICE REGARDING CHILDCARE ARRANGEMENTS 2016-2017

If your child is to be transported to and from home, you DO NOT have to complete and return this form.

Dear Parents,

Arranging transportation for our students is a major task. We are extremely concerned that each and every child be transported safely to and from his/her home or childcare provider. The school policy is that we will transport a child to or from his/her home daily. If a child is transported to/from the home of a childcare provider, that person must live on an established bus route. No bus route changes can be made to accommodate childcare arrangements. Transportation to a childcare provider must be for five days per week. We make every effort to accommodate your requests for transportation, but in some instances it is impossible. If that is the case, you will be notified when this form is reviewed.

**If your child is to be transported to or from a location other than his/her home
you must complete this form and return it to Primary School NO LATER THAN
Wednesday, June 1, 2016.**
